Macrostate probability distribution ($N = 138$)
$P_k$ for $N = 138$
Peak $k_0 = 69$ ($P = 0.0678$)
$k = 30$ ($P = 5.65e-12$)
$k_0 \pm 10$ window
$k_0 \pm 20$ window
Probability $P_k$ [dimensionless]
Number of heads $k$ [dimensionless]
